ANALYTICS COMPANY

## OPTIS<sup>®</sup> PIGCAM<sup>®</sup>

The Optis<sup>®</sup> Pigcam<sup>®</sup> is a non-tethered system that provides up to five hours of colour video footage for the internal inspection of pipelines.

The camera is adaptable and has various pig bodies to suit pipeline size and application. The camera can be mounted forward or backward facing depending on the projects requirements.

### Features:

- 5 hours 30fps of colour video
- 51° field of view
- Inclinator
- Temperature indicator
- High-side indicator
- Internal microphone
- Odometer

### Applications:

- Internal pipeline corrosion assessment
- Pipeline coating inspection - identification of internal coating defects (holidays)
- Pipeline drop out surveys (water, sand)
- Pipeline topography survey using internal gyroscope
- Pipeline blockages/collapses

### Specifications

Diameter	6 in	150.0 mm
Length	12.32 in	313.0 mm
Pressure rating	1800 psi	125 bar
Temperature Rating	104°F	40 °C
Camera Type	Colour CMOS HD	
Power	Alkaline Battery	
Weight	10.14 Lbs	4.6Kg
